INVITATION

The organizing committee cordially invites you to participate in the “2nd Symposium on Medicinal and Aromatic Plants of Mediterranean - MESMAP-2”. The symposium will be held at Antalya, Turkey on April 22-25, 2015. Despite of the fact that the title of the symposium contains “Mediterranean”, this big event welcomes the participants from all climates on the world. Our first symposium (MESMAP-2013) which even had over 300 participants from 35 different countries confirmed this reality. The organizers' previous experience with 6th CMAPSEEC was also a great success having more than 300 participants from 53 different countries. After these afore-mentioned meetings, important and sustainable collaborations and networks among the all the stakeholders were achieved.

MESMAP-2 scientific program covers all related aspects of MAPs and NWFPs such as agriculture and forestry, botany, ethnobotany, herbal medicines, plant biotechnology, phytopharmacology, pharmacognosy, plant biology, phytochemistry, and aromatherapy. A rich social program throughout the symposium will be also provided for informal interactions, which include welcome reception, gala dinner, congress tour, and closing ceremony. The selected papers will be published in a distinguished scientific journal after scientific evaluation.

Antalya, being the symposium location, is a worldwide reputed city that lies down on the northern coast of the Mediterranean Sea with rich in biological, cultural, natural, and historical beauties.

To be in Antalya for this distinguished scientific event will be an amazing experience for you and good memories to take back your home..

Looking forward to seeing you in Antalya in 2015,

Prof. Dr. Nazım ŞEKEROĞLU
Chairman of MESMAP-2
