Artificial Intelligence and Social Responsibility: Shaping a Sustainable Digital Future for the Arab World

The world today is witnessing a rapid digital revolution, driven by advanced technologies, with artificial intelligence at the forefront. AI is no longer just a technical tool; it has become a transformative force reshaping our daily lives and driving a profound shift in education, work, research, and innovation. It has evolved into a decision-making partner, a contributor to shaping the future, and a key driver of social, economic, and cultural change worldwide.

In this context, the Association of Arab Universities plays a pivotal role in supporting, activating, and implementing the Arab Artificial Intelligence Initiative, launched by the Arab League. The initiative aims to foster digital integration among Arab countries and leverage AI to serve sustainable development, education, and scientific research. The Association works to translate this initiative into practical programs across universities by building capacities, promoting collaborative research, and creating academic cooperation platforms, while ensuring that Arab universities are

Prof. Amr Salama
Secretary General

active participants in shaping digital policies, fostering innovation, and embedding ethical standards in the use of these technologies. However, digital progress cannot be fully realized without a genuine commitment to social responsibility. AI technologies must serve humanity, promote digital equity, support sustainable development, and create local and regional innovation opportunities that respond to community needs and enhance their capacities. Social responsibility also entails adherence to ethical values, transparency, and inclusivity, ensuring that no one is left behind in this digital transformation.

The Association of Arab Universities continues its tireless efforts to build an integrated Arab educational and research ecosystem that harnesses AI and translates social responsibility into tangible projects and initiatives. Our goal is to ensure that the digital world of tomorrow is safer, more advanced, and profoundly human, with Arab universities at the heart of this transformation, leading sustainable development and shaping a future worthy of the region's aspirations.

Participation of the Secretary-General of the Association of Arab Universities in the Opening of the International Higher Education Forum "EdUGate"

His Excellency Prof. Amr Ezzat Salama, Secretary-General of the Association of Arab Universities, took part in the opening ceremony of the 17th edition of the International Forum and Exhibition for Higher Education and Training (EdUGate 2025), held on Sunday, August 3, 2025, at the Royal Kempinski Hotel in New Cairo. The event was held under the patronage of H.E. Prof. Ayman Ashour, Minister of Higher Education and Scientific Research of the Arab Republic of Egypt, and carried the theme: "The Future of Education Begins in Egypt."

EdUGate stands as one of the region's most prominent platforms for academic exchange, bringing together universities and educational institutions from across the globe. This year's edition welcomed over 100 universities and institutions from Egypt, the Arab world, Europe, Asia, and Africa, with Malaysia's university delegation honored as the guest of distinction.

Prof. Salama's participation reflects the Association's ongoing commitment to supporting initiatives that advance the quality of higher education and foster academic collaboration and knowledge exchange at both regional and international levels.

The Association of Arab Universities Participates in the First Annual Arab Forum on Artificial Intelligence Under the Patronage of the Secretary-General of the League of Arab States

A delegation from the Association of Arab Universities, headed by H.E. Prof. Amr Ezzat Salama, Secretary-General of the Association, took part in the proceedings of the First Annual Arab Forum on Artificial Intelligence, held under the patronage and in the presence of H.E. Mr. Ahmed Aboul Gheit, Secretary-General of the League of Arab States.

The forum was convened in implementation of the resolution adopted at the Arab Economic and Social Development Summit, held in Baghdad in May 2025. It represents a significant step toward activating the Arab Artificial Intelligence Initiative launched by H.E. Mr. Ahmed Aboul Gheit, aimed at fostering development and enhancing competitiveness across Arab countries.

The Association of Arab Universities was represented by Prof. Dr. Amr Ezzat Salama, Secretary-General, and Prof. Dr. Waleed Salama, Advisor to the Association, who participated in the opening alongside several high-level Arab officials, including the Egyptian Minister of Communications and Information Technology, the Yemeni Minister of Transport, the Egyptian Minister of Education and Technical Education, and members of the diplomatic and consular corps in Egypt.

In his opening remarks, the Secretary-General of the League of Arab States described artificial intelligence as a “revolution in ways of thinking and working,” emphasizing its

rapid advancements that have turned the global scene into what he called “an arms race” among major powers. He urged Arab countries to double their efforts in research and development and underscored the necessity of increasing investment in this sector to enhance the region’s capacity to attract investments.

H.E. Prof. Amr Ezzat Salama highlighted the role of the Association of Arab Universities in this field within Arab higher education institutions, outlining the projects initiated by the Association to promote the application of artificial intelligence in higher education. He also presented the Association’s vision for implementing and operationalizing the Arab Artificial Intelligence Initiative launched by the Secretary-General of the League of Arab States.

Speakers unanimously agreed that Arab cooperation in this domain is no longer an option but an “inevitable necessity.” A noteworthy announcement was the Egyptian proposal to establish a Council of Arab Ministers for Artificial Intelligence, designed to unify efforts and harmonize policies—reflecting a commitment to building a high-level platform for digital integration.

The Egyptian Minister of Education and Technical Education stated that Egypt has adopted national strategies to integrate artificial intelligence concepts into school curricula starting next academic year, reaffirming that preparing future generations is now a top priority.

Prof. Dr. Ismail Abdel Ghaffar, President of the Arab Academy, explained that the idea of the forum stemmed from an ambitious project initiated through the Arab Dialogue on Artificial Intelligence, hosted at the League of Arab States headquarters. This dialogue led to a recommendation in February that laid the foundation for the initiative adopted by the Secretary-General and later endorsed by Arab leaders at the Baghdad Summit in May. Today, the Alamein Forum marks the official launch to transform this vision into tangible reality.

The forum brought together a distinguished group of experts and policymakers to outline a clear roadmap for a unified Arab Artificial Intelligence Strategy and the Arab Charter on AI Ethics, both of which will serve as guiding frameworks for collective action.

AArU Explores Collaboration with LinkedIn to Empower Arab Academia

The Association of Arab Universities (AArU), represented by its Executive Director Prof. Anas Ratib Alsoud, held a fruitful meeting with Mr. Mahdi Rimawi, Director of Academia – MENA at LinkedIn, to explore strategic opportunities for enhancing the academic and professional presence of Arab universities and their faculty members.

The discussions focused on three key priorities previously emphasized by H.E. Prof. Amr Salama, Secretary General of AArU:

- Supporting faculty members in building impactful LinkedIn profiles that showcase their academic achievements and global influence.
- Helping Arab universities brand themselves more effectively to highlight their excellence, innovation, and contributions to higher education.
- Equipping faculty and students with access to LinkedIn's professional training courses, ensuring they are prepared with the skills required for today's competitive job market.

Prof. Alsoud stressed that digital branding and professional development are no longer optional, but essential for Arab universities and academics seeking to expand their global reach and visibility.

This collaboration marks an important step toward unlocking new pathways for universities, faculty, and students across the Arab world, enabling them to thrive in an increasingly digital and interconnected academic landscape.

Enhancing Academic Cooperation Between the Association of Arab Universities and Bentley University (USA)

On August 3, 2025, Professor Anas Al-Saud, Executive Director of the Association of Arab Universities, welcomed Dr. Razan Haddad, Associate Director of Global & Strategic Initiatives at Bentley University (USA), at the Association's headquarters. The meeting was also attended by Ms. Lina Al-Bitar, Director of General Administration, and Mr. Ziad Amara, Secretary-General office Manager and Head of International Cooperation at the Association.

The discussions focused on strengthening academic cooperation and expanding strategic partnerships in areas such as internationalization, entrepreneurship, digital transformation, and capacity building. Both parties explored opportunities for student and faculty exchanges and the implementation of joint programs aligned with the priorities of higher education in the Arab world.

This visit is part of the Association's ongoing efforts to broaden its international partnerships and enable Arab universities to benefit from leading global practices in education, research, and institutional governance.

At the conclusion of the meeting, Dr. Haddad extended a formal invitation to H.E. Professor

Amr Ezzat Salama, Secretary-General of the Association of Arab Universities, to visit Bentley University in early January 2026. The visit will include the signing of a cooperation agreement and an introduction to the university's pioneering models in academic innovation and leadership. A series of meetings with university officials and affiliated research centers is also planned as part of the visit.

The Association of Arab Universities Holds a Series of Meetings to Develop Regional Institutional Accreditation Standards

The Association of Arab Universities (AArU) held a series of meetings to develop the standards of Regional Institutional Accreditation, under the chairmanship of H.E. Prof. Amr Ezzat Salama, Secretary-General of the Association of Arab Universities. The meetings were attended by Prof. Anas Ratib Soud, Executive Director of AArU; Prof. Hussein Al-Maghreby, Quality and Academic Accreditation Expert; and Mrs. Lina Al-Bitar, Director of the General Administration at AArU. The discussions focused on formulating accreditation standards aligned with international best practices.

Institutional accreditation is considered a strong indicator of an institution's commitment to the quality of the educational process and the achievement of its goals in accordance with internationally recognized standards. It also contributes to strengthening the confidence of society and the labor market in institutional outcomes, supporting graduates' employability, and enhancing university rankings at both the local and international levels.

The Association of Arab Universities Organizes Forum on “Cybersecurity as a Social Responsibility in a Digital World”

Under the patronage of H.E. Prof. Amr Ezzat Salama, Secretary-General of the Association of Arab Universities, Al-Quds Open University organized a scientific forum entitled “Cybersecurity as a Social Responsibility in a Digital World” on Tuesday, August 26, 2025, via Zoom, with wide participation from experts and academics representing various Arab universities.

In his opening remarks, the Secretary-General emphasized that cybersecurity is no longer a purely technical matter, but has become a fundamental pillar of national and economic security. He stressed the pivotal role of universities as the first line of defense in this field.

For his part, Prof. Ibrahim Al-Shaer, President of the University and Chair of the Council for Social Responsibility of Arab Universities, welcomed the participants, noting that hosting this forum reflects the University’s belief that cybersecurity is a shared national and societal responsibility. He also called for greater investment in human capital as the cornerstone of digital protection.

Meanwhile, Prof. Youssef Dheeb Awad, Director of the Council for Social Responsibility of Arab Universities and Chair of the opening session, highlighted that the forum embodies Al-Quds Open University’s vision of linking academic knowledge with the needs of the digital society, while also contributing to building a shared Arab awareness to confront cybersecurity challenges. The forum concluded with several strategic recommendations, including launching specialized training programs, supporting applied research, and establishing national cybersecurity centers—initiatives that would enhance secure digital transformation and foster a responsible Arab society in a rapidly evolving world.

The Association of Arab Universities Concludes Training Program on "Educational Technology and Instructional Design for E-Learning and Blended Courses"

On Sunday, August 31, 2025, the Association of Arab Universities successfully concluded its training program entitled "Educational Technology and Instructional Design for E-Learning and Blended Courses", organized for Iraqi universities.

The program witnessed the participation of 96 attendees from 12 different countries, providing a platform for dialogue and the exchange of expertise on the latest global trends in e-learning and blended education.

The training aimed to enable participants to grasp the fundamental concepts of e-learning and blended learning, understand the scientific principles of instructional design to ensure high-quality learning outcomes, discuss interactive learning strategies, and explore the use of artificial intelligence applications in course development and enhancing the learning experience.

The course was delivered by Dr. Ashraf Nirokh, an expert in educational technology with over two decades of experience in designing and developing modern digital learning environments.

The Association of Arab Universities affirmed that this program is part of its ongoing efforts to strengthen the capacities of Arab universities and advance their academic programs in line with global educational trends and quality standards.

يعقد اتحاد الجامعات العربية دورة تدريبية للجامعات العراقية بعنوان: تكنولوجيا التعليم والتصميم التعليمي للمقررات الإلكترونية والمدمجة

وذلك يوم الأحد 2025/8/31
من الساعة 10 صباحاً وحتى الساعة 1:30 ظهراً

تهدف هذه الدورة إلى تمكين المشاركين من استيعاب المفاهيم الأساسية للتعليم الإلكتروني والمدمج، وفهم الأسس العلمية للتصميم التعليمي الذي يضمن تحقيق مخرجات تعليمية عالية الجودة.

خلال الدورة سيُتاح للمشاركين:

- التعرف على مفاهيم التعليم الإلكتروني والمدمج وأثرها على تطوير العملية التعليمية في الجامعات.
 - التعرف على مبادئ التصميم التعليمي وربط المخرجات التعليمية بالأنشطة ووسائل التقويم.
 - مناقشة استراتيجيات التعليم التفاعلي في بيئات التعلم الرقمية.
 - التعرف على المهارات المكتسبة من التعليم الإلكتروني (مهارات التعلم مدى الحياة)
 - الاطلاع على تطبيقات الذكاء الاصطناعي في التعليم وكيفية توظيفها في تصميم المقررات وتحسين تجربة التعلم.
- تسعى هذه الدورة إلى أن تكون مساحة للحوار وتبادل الخبرات بين المشاركين، بما يساهم في بناء رؤية مشتركة لتطوير التعليم الجامعي في العراق، ويعزز قدرة الجامعات على مواكبة التوجهات العالمية وضمان جودة برامجها الأكاديمية.

Coordination Meeting Between the Association of Arab Universities and the Association of Indian Universities to Discuss Joint Cooperation Initiatives

On Monday, August 4, 2025, a virtual coordination meeting was held via Zoom between the Association of Arab Universities (AAU) and the Association of Indian Universities (AIU) as part of ongoing efforts to strengthen academic and scientific collaboration between Arab and Indian higher education institutions.

The meeting focused on several joint initiatives and future projects, most notably preparations for the Arab-Indian University Presidents Conference, the REACH 2025 Conference, and the activation of the Memorandum of Understanding previously signed between the two associations. These efforts aim to foster academic partnerships and promote the exchange of knowledge, expertise, and programs.

Both parties also agreed to launch a series of joint webinars to connect member universities from both regions, encourage academic dialogue, and support collaboration in research.

The Association of Arab Universities was represented at the meeting by:

- Prof. Anas Al-Saud, Executive Director
- Ms. Lina Al-Bitar, Director General of Administration,
- Mr. Ziad Amara, Chief of Staff to the Secretary-General and Acting Director of International Relations and Cooperation.

This meeting reaffirmed the shared commitment of both associations to advancing bilateral relations and building sustainable, impactful partnerships in support of higher education institutions across the Arab world and India.

Interactive Workshop for Ranking Coordinators in Iraqi Universities

On Monday, August 25, 2025, the Interactive Workshop for Ranking Coordinators in Iraqi Universities was launched under the patronage of H.E. Prof. Amr Ezzat Salama, Secretary-General of the Association of Arab Universities.

Key speakers included:

- Prof. Anas Al-Saud, Executive Director of the Association of Arab Universities, who presented the new Arab Ranking platform and data entry mechanisms.
- Prof. Essam Khamees, who delivered an in-depth lecture entitled: “The Arab University Ranking: Objectives, Indicators, and Data Requirements.”

The workshop highlighted the objectives, criteria, and timeline for the 2025 Arab Ranking release.

With the participation of over 200 coordinators from Iraqi universities, the event featured dynamic interaction and valuable discussions, reflecting the universities’ commitment to quality, research, and innovation.

يسر الأمانة العامة لاتحاد الجامعات العربية دعوتكم لحضور
ورشة العمل التفاعلية المخصصة لمنسقي التصنيف في الجامعات العراقية

حيث سيتم في الاجتماع ما يلي :

- استعراض مؤشرات التقييم المعتمدة في النسخة الثالثة من التصنيف العربي للجامعات.
- تقديم شرح تفصيلي للمنصة الإلكترونية الجديدة وآلية إدخال البيانات.

The Association of Arab Universities Organizes Virtual Scientific Seminar on "Arab Impact Factor"

On Monday, 4 August 2025, the Association of Arab Universities (AArU) held a virtual scientific seminar via Zoom under the title "Arab Impact Factor: Criteria for Indexing Arab Journals". This initiative comes as part of the Association's continuous efforts to advance scientific research, enhance the visibility of Arab journals, and strengthen their presence in international academic rankings.

The seminar was opened by Prof. Anas Rateb Al-Saud, Executive Director of the Association, who underscored the importance of developing a credible Arab framework for journal classification as an essential tool to improve research quality and elevate academic publishing standards across the region. Ms. Lina Al-Bitar, Director of the General Administration at the Association, was also in attendance.

The keynote presentation was delivered by Prof. Mahmoud Abdel-Aty, Founder and Director of the Arab Impact Factor Project at Sohag University, Egypt, and Vice President of the African Academy of Sciences in Nairobi, Kenya. He outlined the project's operational framework, classification criteria, calculation methodology, and its role in addressing the challenges facing Arab journals in attaining recognition within global indexing databases.

يسر اتحاد الجامعات العربية أن يدعوكم لحضور ورشة علمية أونلاين بعنوان:

معامل التأثير العربي: قواعد تصنيف المجلات العربية

محاور الورشة:

- مقدمة عن معامل التأثير العربي
- آلية حساب معامل التأثير
- المعايير الأساسية لتصنيف المجلات.
- كيف يؤثر التصنيف على جودة الأبحاث والنشر.
- دور معامل التأثير العربي في تذليل العقبات في الحصول على تصنيفات عالمية.
- كيفية تشجيع المجلات على نشر الأبحاث الرائدة.

Meeting ID: 813 0725 1527
Passcode: 405021

التسجيل

12:00 ظهراً
(بتوقيت الأردن)

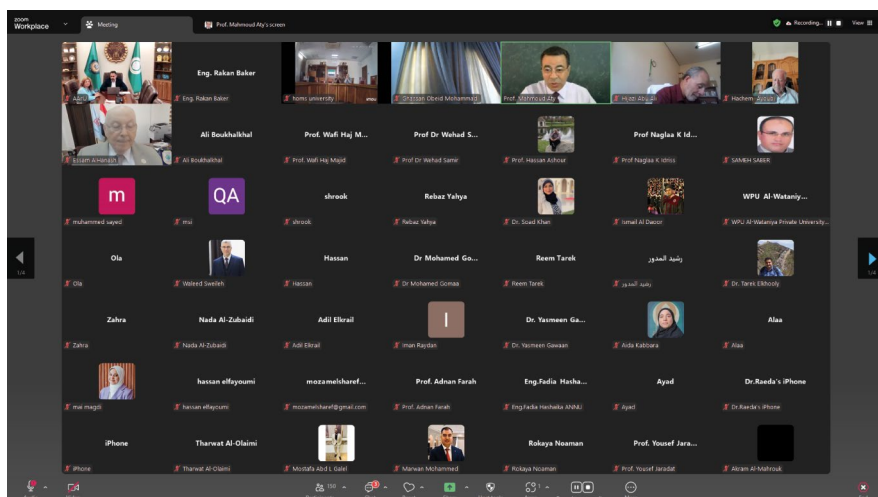

الاثنين
2025/8/4

أ.د. محمود عبد العاطي
- مؤسس ومدير مشروع معامل التأثير العربي
جامعة سوهاج - مصر
- نائب رئيس أكاديمية العلوم الأفريقية
نairobi - كينيا

The discussions addressed several core themes, including:

- Introduction to the Arab Impact Factor project
- Methodology for calculating the impact factor
- Main criteria for journal classification
- The influence of classification on research quality and publishing standards
- The Arab Impact Factor's role in supporting journals toward international indexing
- Strategies for encouraging the publication of pioneering research

This seminar forms part of a series of specialized scientific events organized by the Association of Arab Universities, aimed at fostering a competitive and innovative academic environment aligned with international standards, and supporting sustainable development goals across the Arab world. The event witnessed wide participation from academics, researchers, and representatives of various Arab universities.

The Arab Council for University Governance

The Arab Council for University Governance is one of the councils affiliated with the Association of Arab Universities. It was established by a resolution of the General Conference during its 48th session, held at Saint Joseph University in the Lebanese Republic in 2015. The Council is headquartered at Middle East University in the Hashemite Kingdom of Jordan.

Vision of the Council:

Adopting sound governance and wise leadership in Arab universities.

Mission of the Council:

Commitment and dedication to practicing governance standards in order to raise the quality of Arab higher education.

The Council aims to:

- Encourage the transition to digital governance practices by leveraging global networks and information and communication technology sciences.
- Establish the foundations of digital transformation in governance and methodologies for its application in Arab universities.
- Expand the scope of scientific research in digital governance to build intellectual frameworks in the paths of leadership, creativity, digital innovation, and in addressing administrative and technical challenges.
- Develop principles, foundations, and indicators for the governance of Arab universities.

The Scientific Association of Arab Faculties of Law

Prof. Fatiha Gourari

Secretary General of the
Association

The Scientific Association of Arab Faculties of Law is one of the associations established under the Association of Arab Universities. It is headquartered at United Arab Emirates University and is composed of Faculties of Law in the member universities of the Association of Arab Universities. The Association seeks to support its member faculties in preparing graduates capable of serving their Arab nations and achieving their aspirations through the following:

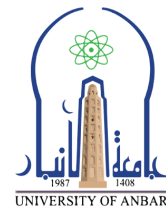

- Cooperating to raise the level of legal education.
- Encouraging scientific research, joint studies, and the exchange of research findings.
- Organizing specialized academic seminars and conferences.
- Facilitating visits and exchanges of faculty members, academic experts, students, and publications among member faculties.
- Establishing professional training programs for legal practitioners in cooperation with member faculties.
- Coordinating the efforts of member faculties in international organizations and conferences.
- Strengthening cooperation with peer law schools regionally and internationally.
- Developing a legal information database and an interconnected network for information exchange in the field of law.

University of Anbar Honors Palestinian Students and Grants Them Priority for Free Graduate Studies

Under the patronage of Prof. Dr. Mushtaq Talib Saleh Al-Nada, President of the University of Anbar, and the supervision of Prof. Dr. Wissam Hashim, Assistant to the President for Academic Affairs, the Student Affairs Department at the University organized a ceremony to present training certificates to students from Arab universities who completed internships at the University of Anbar's colleges.

This ceremony is part of a student training exchange agreement between Arab universities, coordinated with the Arab Council for Student Training and Innovation, affiliated with the Association of Arab Universities, aiming to strengthen academic cooperation and cultural exchange among higher education institutions in the Arab world.

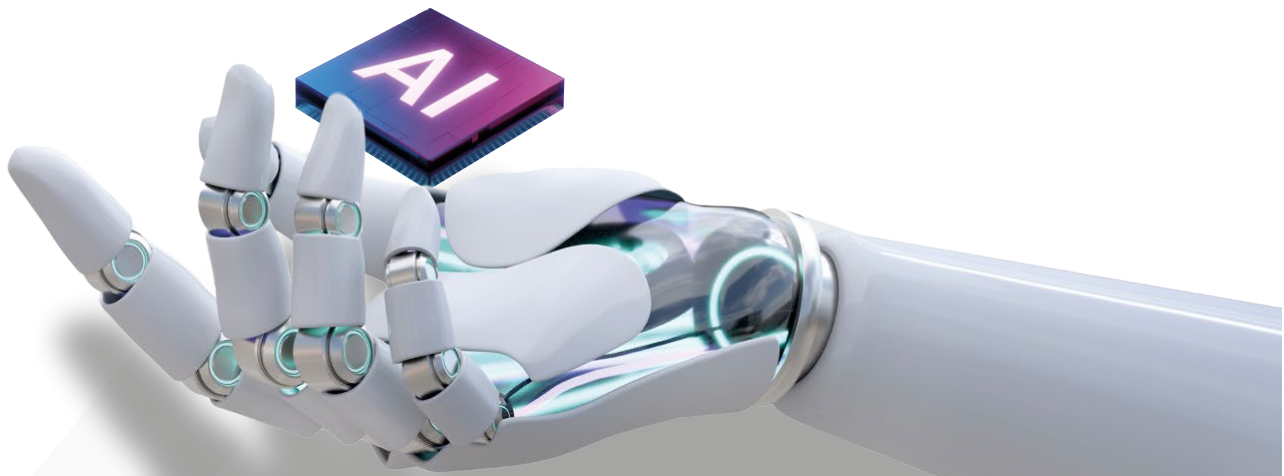

In his speech, the University President expressed his pleasure in meeting the Palestinian students, emphasizing that mentioning the name "Palestine" touches hearts and evokes the sacrifices of the martyrs. He also announced granting them priority for free graduate studies in Iraq under the "Study in Iraq" program for master's degrees, extending his greetings to the families of the students and the heads of universities in beloved Palestine. The ceremony included speeches by several students and a screening of a film portraying the story of a Palestinian prisoner, concluding with the distribution of appreciation certificates to the students.

Conference Topics

1. The Impact of Artificial Intelligence in Education for Sustainable Digital Higher Education.
2. Virtual Reality in Education.
3. Natural Language Processing (NLP).
4. Quality Assurance of AI-Based Learning Personalized Learning through AI, AI and Teacher Professional Development.
5. AI, Leadership and Governance.
6. AI for Cybersecurity.
7. AI in Healthcare.
8. Ethical Considerations of AI.
9. Other related topics to AI.

Selected papers could be considered for publication in prestigious, high-impact journals.
